No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             80

Sequence 8, Applicate

Patent No. 6593463

PARLENT: Chen, Li How
APPLICANT: Chen, Li How
APPLICANT: Meade, Harry M.

TITLE OF INVENTION: NOVEL MODIFIED MSP-1 NUCLEIC ACID
TITLE OF INVENTION: SEQUENCES AND METHODS FOR INCREASING MRNA LEVELS AND PROTE
TITLE OF INVENTION: EXPRESSION IN CELL SYSTEMS
FILE REFERENCE: 10275-133001
CURRENT PILLING DATE: 1998-10-20
PRIOR APPLICATION NUMBER: US 60/085,649
PRIOR APPLICATION NUMBER: US 60/062,592
PRIOR APPLICATION NUMBER: US 60/062,592

PRIOR FILING DATE: 1999-05-15
PRIOR APPLICATION NUMBER: US 60/062,592
